

Hurricane Ian Resource Center

Resource Center

September 30, 2022

Hurricane Ian's path of destruction through Florida and North and South Carolina leaves residents and property owners to grapple with massive cleanup and reconstruction issues. Akerman has assembled this resource center to provide those impacted by this storm - and any natural disaster - guidance on navigating the daunting terrain left in its wake.

Founded in Florida in 1920, Akerman and many of our colleagues and friends face this disaster head on - this isn't our first and will not be our last hurricane. But together, sharing knowledge, resources, and skill, the impacted communities will rebuild and reemerge stronger than before.
