

Press Release

Akerman Named a *Construction Executive* Top 50 Construction Law Firm

June 9, 2023

We are pleased to announce that Akerman has been recognized by *Construction Executive* magazine in its “The Top 50 Construction Law Firms” list for the second year in a row. The firm climbed 14 places to rank 32nd on the list this year.

“I believe the significant improvement in our ranking is a testament to the quality of work our practice provides clients across the country,” said Jeff Gilmore, Chair of the Construction Practice. “We will continue to grow and strengthen our practice because we are committed to serving our clients nationwide with all stages of their public and private construction initiatives.”

Construction Executive, one of the industry’s leading business magazines, based its ranking on survey results from hundreds of U.S. law firms with a construction practice. Data collected included 2022 revenues from the firm’s construction practice; number of attorneys in the firm’s construction practice; percentage of the firm’s total revenues derived from its construction practice; number of states in which the firm is licensed to practice; year in which the construction practice was established; and the number of AEC clients served during fiscal year 2022. The ranking was determined by an algorithm that weighted these factors in descending order of importance.
