

Speaking Engagements

Christy Hawkins to Speak on Ethical Obligations of AI

August 2, 2023

12:00 PM – 1:00 PM ET

Webinar

Christy Hawkins will speak on a webinar panel titled, “AI & Ethics: New Developments, Regulatory Considerations & Ethical Obligations,” presented by the Association of Corporate Counsel (ACC). The webinar will delve into the critical intersection of artificial intelligence (AI), ethics, and regulatory compliance, using the compliance trifecta approach of “say it, do it, prove it.” Participants will learn about the latest developments in AI ethics and regulatory considerations, as well as their ethical obligations as AI practitioners. The panelists will also discuss the nuanced ethical requirements specific to lawyers that are implicated by the use of AI, including competence, acceptable use, avoiding bias, and confidentiality of information.

From articulating clear ethical principles and compliance requirements for AI development and deployment, the practical implementation of ethical and regulatory requirements to the demonstration of accountability and transparency in AI governance, the panelists will provide an overview of the compliance trifecta approach and how to apply it to AI governance. They will also review practical tips and strategies for managing ethical, regulatory, and legal risks associated with AI development and deployment, and for fostering a culture of responsible AI innovation.
