Akerman Partners Tom Range and Bruce Platt Cite Takeaways From New Fla. Pharmacy Benefit Manager Rules

May 30, 2023

On May 3, Florida Gov. Ron DeSantis signed a comprehensive law, the Prescription Drug Reform Act, which imposes several requirements on pharmacy benefit managers, or PBMs. These include a licensing requirement and provisions governing transparency and accountability for relationships between PBMs and other relevant players involved with the delivery of prescription drug benefits.

In a *Law360* article, healthcare partners [Tom Range](#) and [Bruce Platt](#) in Tallahassee explain a few of the act's requirements and discuss some practical considerations for compliance.

The authors wrote: "The act also imposes a host of new requirements on the relationships between PBMs and pharmacy benefit plans that pay for or provide access to discounts on pharmacist services, e.g., an insurer, health maintenance organization or a self-funded employer plan, as well as those between PBMs and their contracted pharmacies."
