Law360 Report on Strongest Legal Markets Cites Akerman

January 2, 2015

International Practice Chair Pedro Freyre was quoted in the *Law360* story titled, “5 Legal Markets to Watch in 2015,” which highlighted five global cities with the strongest legal market and business activity. Miami ranked among the top five markets. The publication projected that the city will serve as the legal market gateway to Cuba as U.S. travel and trade restrictions between the countries loosen. Freyre discussed the historic changes recently made on U.S.-Cuba policy and the industries likely to see immediate business opportunity as a result.

Law360 wrote, “Pedro Freyre, chairman of Akerman LLP’s international practice, called the opening of Cuba a ‘watershed moment,’ with he and others predicting an immediate upswing in travel and hospitality related legal work and advisement, as well as more work for financial institutions.”
