Akerman Hosts Seminar on Embracing Artificial Intelligence: Six Key Concepts for Compliance in Regulated Industries

September 17, 2024
4:00 PM – 5:15 PM CT

Arts District Mansion
2101 Ross Avenue
Dallas, Texas

Akerman will host a seminar on Embracing Artificial Intelligence and Six Key Concepts for Compliance in Regulated Industries. During the session panelists, including representatives from Akerman, Aflac, and Privacy Analytics Incorporated, will help attendees better understand:

- Emerging regulation and guidance on the use of artificial intelligence in healthcare, insurance, and financial services
- Core concepts for successfully implementing artificial intelligence within an organization
- Suggestions for building an artificial intelligence compliance framework in a transforming environment

This hybrid event will be offered both in-person and virtually. Please select your preferred attendance option by clicking the registration button below. If you are in the area, we encourage you to join us in person for the CLE and the networking opportunity.
