Akerman Hosts Advanced M&A and Private Equity Boot Camp on Technology and AI: Legal Considerations for M&A Practitioners

September 17, 2025

1:00 PM – 2:00 PM ET

Virtual Program

Akerman's M&A and Private Equity and Technology Transactions Practices will present an advanced Private Equity Boot Camp workshop on Technology and AI: Legal Considerations for M&A Practitioners. Attendees will join virtually for an insightful fireside chat featuring [Melissa Koch](#), chair of Akerman's Technology Transactions Team, and [Jonathan Beckham](#), partner, Corporate and Technology Transactions Practice. This complimentary program is geared towards advanced and executive private equity professionals.

During this session, we will present a common framework for evaluating technology assets and infrastructure, and for addressing some unique legal considerations that arise in relation to technology assets and infrastructure in the context of an M&A transaction. The session will include a focus on artificial intelligence applications and infrastructure, including key risk areas, due diligence and contracting approaches, data privacy, cybersecurity, and AI development and governance concerns.
