Michael Napoli will speak on a featured panel at the National Association of Federal Equity Receivers (NAFER) Annual Conference.

Michael’s panel titled “Unusual Administrative Challenges in Receiverships” will provide practical guidance on how to close federal receiverships, address unique administrative challenges, protect stakeholder interests, and ensure regulatory compliance. Attendees will learn when it may be appropriate to leave assets unadministered or end administration while keeping the case open, how to transfer assets or claims to a liquidating trust, and how to handle special considerations for FTC receiverships and multiple investor classes. The session will also cover post-receivership corporate compliance, such as Secretary of State filings and obligations under the Corporate Transaction Act, giving attendees a clear framework for finalizing receivership cases and meeting statutory requirements.
