Akerman is proud to sponsor the 44th Annual Illinois Association of Healthcare Attorneys' (IAHA) Health Law Symposium, the premier educational event for Illinois attorneys focused on healthcare law. This year's program, "Policy to Practice: Federal Healthcare Reform at the State Level," explores how federal healthcare policies and reforms translate into state-level implementation, and the legal, regulatory, and operational challenges that arise along the way.

Attendees will benefit from a comprehensive agenda featuring sessions on regulatory updates, litigation trends, and compliance challenges, led by distinguished speakers including Illinois legislative leaders and healthcare experts. With CLE credit hours, networking opportunities, and on-demand sessions, this symposium serves as an invaluable resource for those navigating the dynamic healthcare legal landscape.
