Speaking Engagements

Stacy Bercun Bohm and Dan Miktus to Discuss Construction Risk in Senior Living Developments

November 18, 2026
2:00 PM ET

Virtual Webinar

Akerman's Construction Practice Co-Chair Stacy Bercun Bohm and Partner Daniel Miktus will present at the American Bar Association's Residential, Multi-Family and Special Use Group webinar on November 18. Their presentation, "Constructing Care: Managing Legal Risk in Senior Living Development," will explore key construction law considerations affecting senior living and care facilities.

Stacy and Daniel will discuss the intersection of construction requirements and healthcare regulation, including building code and licensing considerations, accessibility and life safety requirements, and strategies for anticipating and allocating project risk. They will also share practical considerations for addressing these issues through early planning, stakeholder coordination, and well-drafted design and construction agreements.
