Presented by Akerman's Cuba Practice

March 20, 2015
1:00 PM – 2:00 PM UTC

Akerman, together with Houlihan Lokey, ITG, and Vaupen Financial Advisors, will host a webcast program highlighting the opportunities and potential challenges for investing and operating in Cuba following the recent relaxation of U.S. government restrictions. Discussion topics will include how U.S. companies are positioning themselves to take advantage of expected opportunities in Cuba, lessons learned from similar situations, including the opening of Vietnam to foreign direct investment from the U.S., and insight into travel restrictions to Cuba and local business practices.
