

Practices

Healthcare M&A and Joint Ventures

In a dynamic healthcare marketplace, consolidations present numerous opportunities and challenges for healthcare entities. Success depends on a well-executed integration that complies with myriad federal and state laws governing healthcare M&A, as well as increasing regulatory scrutiny.

Top-ranked in Corporate, M&A, and Private Equity law by *Chambers USA*, we have significant experience in corporate and investment structuring, acquisition negotiations, due diligence reviews, financing, and securities filings, in addition to spin-off and merger transactions. We work with private equity funds, nonprofit health systems, publicly traded companies, managed care organizations, pharmaceutical companies, ambulatory surgery companies, senior living facility operators, and other healthcare-related companies.

Our Healthcare M&A and Joint Ventures Practice is a multidisciplinary team working with clients on all aspects of healthcare M&A and joint venture transactions, including permitting, licensure, provider enrollment, and reimbursement issues involved with multistate transactions. We also structure relationships and arrangements between healthcare providers in order to be eligible for such innovative approaches as Medical Homes and Accountable Care Organizations.

What We Do

- Investment structuring
- Acquisition negotiations
