# Medicare, Medicaid, and Third Party Reimbursement

Compliance with the laws and regulations governing Medicare and Medicaid reimbursement is critical to the financial success of healthcare providers through appropriate optimization of revenue.

Recognized by *U.S. News – Best Lawyers* as a national leader in health law, Akerman's Healthcare Practice Group counsels clients in pre-payment reviews, payment suspensions, audits, claim denials, overpayments, and appeals at all administrative and judicial levels. Our highly skilled team, which includes a former general counsel for a statewide Medicaid program, works with leading reimbursement consultants and other experts and statisticians to assist clients in maintaining reimbursement compliance and in disputing Medicare, Medicaid, and third-party payor overpayment determinations based on statistical extrapolations.

In addition, we routinely assist in the development of corrective action plans, compliance programs, and provide other reimbursement-related compliance guidance and assistance in developing programs consistent with the OIG Compliance Guidance for various healthcare companies and ancillary support service companies.

## What We Do

- Medicare and Medicaid audits and overpayments
- Reimbursement compliance
