

Practices

Pharmacy, Drugs, and Medical Devices

From regulatory compliance and enforcement cases to false claims investigations and transactional matters, pharmacies, pharmacists, trade organizations, hospitals, drug wholesalers, device manufacturers and distributors, and other entities involved in the legal drug and device delivery system can find their operations and bottom line affected by a wide range of legal issues.

For three decades, Akerman’s Healthcare Practice Group has represented clients on pharmacy and drug and device distribution issues across regulatory, licensing, contractual, transactional, and litigation matters—both civil and administrative and appeals. We have handled matters before numerous Boards of Pharmacy, the Drug Enforcement Administration, the U.S. Food and Drug Administration, the Centers for Medicare and Medicaid Services, the U.S. Office of Inspector General, state-based departments of health and agencies for health care administration, divisions of drugs, devices, and cosmetics, state Attorneys General, and the Medicaid Fraud Unit.

What We Do

- Pharmacy and pharmacist disciplinary cases
- Medicaid and Medicare audits and investigations
- Pharmacy Practice Act compliance
- HIPAA compliance
- Anti-kickback statute compliance
- Controlled Substances Act compliance
