Gary Guzzi will speak on a panel titled, “Defending Corporate Representative Depositions Myths, Realities, and Strategies” at the First Annual Florida Insurance Network Symposium presented by the Florida Defense Lawyers Association. The panel will provide helpful guidance on how to prepare client witnesses for 30(b)(6) or 1.310(b)(6) depositions (particularly in the bad faith context), to ensure that the client complies with its obligations and to avoid common pitfalls or “traps” that can arise during such depositions. The conference is geared toward both practitioners and claims professionals.
