The panel will tackle the redefinition of first responder and conclusive and/or rebuttable presumption directives in the face of uncertainty, and discuss how law offices are gearing up to "educate" potential claimants in anticipation of an influx of COVID-19 claims.

NAPEO provides workforce solutions for businesses looking to grow and thrive, advocates for the interests of PEOs at all levels of government, and provides robust member resources, vital networking and referrals, relevant and timely education, and effective public relations and marketing support.
