

APPENDIX B: Secondary Target Industries for the COVID-19 NEP

Appendix B contains a list of NAICS codes for non-healthcare essential workers who are likely to have the highest frequency of close contact exposures to the public or to coworkers resulting from their on-site work-related duties. This list was generated for critical infrastructure industries identified both by the Cybersecurity & Infrastructure Security Agency (CISA) and the Centers for Disease Control and Prevention (CDC) Advisory Committee on Immunization Practices (ACIP). These industries have been deemed essential to operations that maintain critical business operations or would otherwise help to maintain a healthy work environment and are likely to have exposures to COVID-19.¹

NOTE: Industries in Table 1 below are to be used to supplement selections from Appendix A when generating Master List 1 for COVID-19 NEP targeting.
